# FLIR VUE<sup>™</sup> Pro

Take drone thermal imaging and data recording to the next level with Vue Pro

Designed for professional use, FLIR Vue Pro is more than a thermal camera, it is a thermal measurement instrument and data recorder that adds tremendous value to your sUAS operations and services. Still with the same industry-leading thermal imaging quality and affordability as the best-selling FLIR Vue, the Vue Pro adds full data recording of thermal video and 14-bit still imagery. When connected to compatible flight control systems, it will automatically insert full aircraft geo-location and flight data information into each captured image for the easy image stitching required for mapping, survey, and precision agriculture applications.

## AFFORDABLE THERMAL IMAGING AND ON-BOARD DATA RECORDING

- Airborne thermal data recording starting as low as \$1,999
- Simple power-in/video-out interface over 10-pin mini-USB connector
- Image settings optimized for airborne operations

## ON-BOARD RECORDING OF THERMAL IMAGERY AND FLIGHT DATA TO AN ON-BOARD MICROSD CARD

- Record real-time thermal videos in MOV format
- Still images save aircraft's flight information in each still image
- MAVLink integration over RS-232 connection

## FLEXIBLE, POWERFUL CAMERA CONTROL AND CONFIGURATION OPTIONS

- Control two selectable camera functions with PWM inputs – imagery color palettes, recording start/stop, still image capture, or E-zoom setting
- Configure your camera's recording and control settings with our mobile app
- Field-upgradeability make sure you'll always have the latest features

## INTERDRONE SPECIAL

**1 MONTH FREE\* MAPPING SERVICE FROM PIX4D**

**STOP BY BOOTH # 704 TO GET THE PROMO CODE**

\* WITH PURCHASE OF 640 PIXEL CAMERA
